

# REPORTING LIFE CHANGES TO VERMONT HEALTH CONNECT

If you have health insurance through Vermont Health Connect, we need to know when you have certain changes in your life.

VERMONT  
HEALTH  
CONNECT

Weddings, births, new jobs, raises, and other changes can impact your health insurance choices and your costs. If these changes aren't reported, you could end up owing money back at tax time.

If you receive—or are interested in receiving—financial help to make health insurance more affordable, some common life changes you should report include:

- ✓ A change in job or income
- ✓ Getting married or divorced
- ✓ Moving
- ✓ Having a child or adopting a child
- ✓ A change in immigration status
- ✓ Gaining or losing a dependent
- ✓ Getting health coverage through a job or a program like Medicare or TRICARE

For a full list please visit [VermontHealthConnect.gov](https://VermontHealthConnect.gov) or call our Customer Support Center 1-855-899-9600 (toll-free).

Plus, if someone in your family doesn't have health insurance, some of these changes may qualify them to sign up for health insurance too.

And we're here to help you through the process.

Call our Customer Support Center  
**1-855-899-9600 (TOLL-FREE)**  
or visit  
**VERMONTHEALTHCONNECT.GOV**  
to report life changes.
